OVERVIEW

Commodities

We Trade We understand that every market is different. Our network of teams at the areas we operate works closely with our customers to identify and develop solutions which work best for them, helping them to manage physical risks and optimize opportunities.

Sales

1. We procure our product: Rice, Fresh Vegetables, Animal feed corn & Etc from our related sources (such as millers, manufacturers, suppliers and traders), sell and resale for the benefit of end-users.
2. We have specialist's in our team with first-hand knowledge and expertise in the markets, maintaining long term relationships with supplying sources and buyers, and they are actively involved in developing projects, related to these products.
3. We believe that we offer a competitive advantage because we have the flexibility, speed and logistics expertise that our customers need and expect.
4. Turning market intelligence into market advantage as well as our extensive links with all the major producers means that we are able to work with existing and new streams in any part of the world.
5. We also help our customers manage their physical requirements, all within an overall commitment to the development of long-term relationships that benefit all parties.

Shipping

Transporting Products from manufacturing units to demand regions takes a robust and comprehensive supply chain that includes maritime transport and storage sites. Shipping of hydrocarbon oil is an absolutely priority and is at the core of our business. As such, transportation is an essential part of our operations. Shipping oil requires advanced technical expertise and excellent coordination. Our priority at every step in the transport process is to ensure the safety of our employees, the environment, our ships and our cargo. Through our joint venture partners who operates and invests in an interconnected system to deliver all our products to their final destinations.

Expertise

We keep very close track of the price trends in the oil market along with credit flows and macro-economic and political developments. With a high degree of adjust-ability, we seek to identify market opportunities in a volatile environment or shy away from sectors with deteriorating prospects. We are rigorously committed to operational, market and financial risk management. The aim is to insulate ourselves and our clients to the highest degree possible from the volatile external market movements.
